Arjun Mehta

Senior Software Engineer | arjun.mehta@example.com | Bengaluru

Summary

Backend engineer with 4 years building large-scale distributed systems in Java and Python.

Experience

• Software Engineer II, ShopKart (2022-Present): Designed a distributed order-indexing service on Kafka and Cassandra handling 50K req/s; built fault-tolerant query APIs in Java/Spring Boot; reduced storage cost 30% with tiered S3 storage.
• Software Engineer, PayLane (2020-2022): Built microservices in Python (FastAPI) and Go; implemented CI/CD with Jenkins and Docker; worked in two-week agile sprints.

Skills

Java, Python, Go, Spring Boot, Kafka, Cassandra, AWS, Docker, Kubernetes, distributed systems, system design, agile/Scrum

Education

B.Tech in Computer Science, NIT Warangal (2020)
